

BMC6

Chopped Strand

CHOPPED STRAND FOR COMPRESSION MOLDING AND INJECTION MOLDING APPLICATIONS

Product Description:

BMC06 is a chopped strand product made from E-glass. It is used in harmony with resins, fillers, catalyst and other additives in BMC (Bulk molding compound) processes.

Features and Benefits:

- Manufacturing in accordance with ISO 9001:2015 conditions
- High integrity with good fiber dispersion
- Excellent flow characteristics and excellent bulk density
- Good processing
- Low fuzz and low discoloration
- High mechanical properties

Product Specifications:

Glass Type	E	Sizing Content (%)	0.70 ± 0.20
Fiber Diameter (μ)	Nom. 14	Flowability	Very good
Moisture Content (%)	max. 0.07	Resin Compatibility	Unsaturated Polyester, Epoxy, Vinylester
Sizing Type	Silane	Fiber Length (mm)	6 - 12

End-use Markets:

-  Transportation
-  Building & Construction
-  Electric & Electronic

Packing Information:

Packaging	Big-bag / Kraft bag
Pallet Dimensions (cm)	114 x 114
Pallet Height (cm)	120
Pallet Net Weight (kg)	1000 / 1100

Please scan the QR code for more detailed packaging information.

Storage Conditions:

Product should be stored in dry area at room temperature and relative humidity of approx 65%. Product should be conditioned for 24 hours in the work area prior to use. In case of partial usage, package should be re-sealed.

Form No: EN-3112-1

Revision Date: 03.2023
